CHANGES FROM VERSION 5.1.7 → 5.1.8:
- → Fixed a problem with the date links on the Data page.
- → Moved the labels for cash and time on the Charts page.

CHANGES FROM VERSION 5.1.6 → 5.1.7:
- → Added the ability to click the slip number on the Data page which will take you to the OT slip.
- → Changed the label for the pay periods on the Total page and added a comment to the field.
- → Changed the color of the column labels on the Charts page to be more visible.

CHANGES FROM VERSION 5.1.5 → 5.1.6:
- → Changed the upgrade function to properly pull in the supervisor information from prior versions.

CHANGES FROM VERSION 5.1.4 → 5.1.5:
- → Changed the caption on the Options page and OT Slip page to reflect the removal of the SSN.
- → Changed the fonts on the OT Slip page and the 28 Slip page to all use a common font.

CHANGES FROM VERSION 5.1.3 → 5.1.4:
- → Fixed the OT Slip page scheduled start date field to check the correct cells.
- → Fixed the OT Slip page tour number field to refer to the date on the Data page.

CHANGES FROM VERSION 5.1.2 → 5.1.3:
- → Fixed the 28 Slip page to check the start tour override field for the dates to appear properly.

CHANGES FROM VERSION 5.1.1 → 5.1.2:
- → Fixed the 28 Slip page to correctly display the days off for Ops Desk personnel.

CHANGES FROM VERSION 5.1.0 → 5.1.1:
- → Added a checkbox for other type of leave on the 28 Slip page.
- → Fixed the margins and alignment for the 28 Slip page.

CHANGES FROM VERSION 5.0.2 → 5.1.0:
- → Fixed an error with the cash and time checkboxes on the OT Slip page.
- → Reinstalled the hour addition area on the Totals page due to several requests.
- → Set the default for displaying all columns on the Data page to Yes.
- → Set the default for displaying the OT colors on the Calendar page to Yes.
- → Added a comment to better explain the Secondary Information on the Options page.
- → Removed the Save button from the Options page and set the system to auto save.

CHANGES FROM VERSION 5.0.1 → 5.0.2:
- → Removed stray data validation from the OT Slip page.
- → Fixed a problem with the cell reference for the incident start time on the OT Slip page.

CHANGES FROM VERSION 5.0.0 → 5.0.1:
- → Removed stray data validation from the calendar page.
- → Updated the 28 slip to reflect recent revisions removing the SSN.
- → Fixed a time calculation error caused by rounding issues.
- → Added an update to secondary rate to import the primary rate from older versions.

CHANGES FROM VERSION 4.1.2 → 5.0.0:
- → Program now accurately tracks overtime from working vacation.
- → Consolidated all setting information into a new options page.
- → Added the ability to print leave of absence reports.
- → Added upgrade functionality to automatically upgrade from previous versions.

- → Displays the cash OT earned each day on the data page.
- → Ability to show or hide the cash earned and the secondary tour selector on the data page.
- → Added an option for a secondary overtime rate. This option can be used by MOS who are promoted or received a raise through any other method (i.e. contract settlement).
- → Calendar now color codes a partial day off and overtime.
- → Tour number on OT Slip page now fills in automatically.
- → Added an option to include unpaid cash overtime from the previous year in the options page.

CHANGES FROM VERSION 4.1.1 → 4.1.2:
- → Fixed a calculation error with the secondary tour length on the OT Slip page.

CHANGES FROM VERSION 4.1.0RC1 → 4.1.1:
- → Added an option for a secondary tour length. This option can be used by the detective squads who have variable tours and for MOS when promoted mid year. It can also be used for the new detective contract tour change.

CHANGES FROM VERSION 4.0.3 → 4.1.0RC1:
- → Fixed a problem when assigned tour was an even 8 hours.
